

Robert Hassold

Human Performance Consultant, Healthcare Division

Summary of Experience

Bob Hassold is a human performance consultant with 58 years of broad-based experience. Bob's career includes extensive "hands on" experience in the design and implementation of innovative performance improvement systems. His systems create a working environment in which employees take ownership of their work processes and share in the financial gain achieved from their performance improvement contributions as a team.

Bob successfully has installed Care-Share™ and its operating concepts in a variety of industries and cultural settings:

- Healthcare
- Industrial
- Engineering & Construction
- Service
- Union
- Non-Union
- US-based
- International
